Welcome to History 2, Western Civilization from 1400
LAVC Spring 2013, Professor Michelle Lewis

Please read this entire document carefully. Enrolled students are responsible for all information contained in this document.

Make sure to complete the Introductory Tasks (beginning on page 4 of this document) by Tuesday, February 5 at 9pm. Students who do not complete them by the due date may be dropped from the course.

Suggestions for a positive and successful experience:

1) Time commitment

When this course is offered as a traditional, face-to-face class, it meets for approximately 3.5 hours per week. That does not include time spent on the coursework outside of the classroom, such as reading the textbook, studying and writing. Therefore, you should expect to spend the same amount of time for an online class as for a face-to-face class. Expect to log on to the class website at least 3 times per week, and to be spending a significant amount of time online.

2) Read and follow all directions carefully

This is so crucial for success in an online course. I have found that some students don't do well in my online courses simply because they have failed to read and follow directions. Ensure a good start by reading this document carefully. Throughout the course, make sure to read all directions for the various assignments carefully and read all announcements.

3) Procrastination…don’t do it!

Do not wait until the last minute to complete the assignments. Just because an assignment is due on a particular day, does not mean that you should wait until that day to work on it. In fact, you should always try to work ahead of the due dates. *Excuses for missing deadlines, including technical difficulties and personal problems, will not be accepted.* Slightly late work will be accepted in some cases, however points will always be deducted.

4) Stay connected

Every time you log on to Etudes, check the Announcements, your Private Messages and the Discussion Board for new entries. Check the calendar in the Schedule section to make sure you are on track with progress on all of your assignments.

5) Have fun!

Hopefully you are taking this class, at least in part, because you have an interest in the subject. Enjoy the readings and discussions. Be respectful of your classmates’ opinions as they are expressed in the Discussion Forums.

In-Person Meetings
There are no in-person meetings for this course.

Required Text: Greer, A Brief History of the Western World. Volume II
9th edition (Thomas Wadsworth). (The CD Rom is not necessary.)
The textbook is necessary for this course. You will need it from the very beginning of the semester. If you order it online, and the book does not arrive on time, this will not be a valid excuse for not being able to complete your work to the level expected. There are new and used copies available at the LAVC Bookstore.

Grading: It is possible to earn a total of 200 points in this class.
A= 180 or more points
B= 160-179 points
C= 140-159 points
D= 120-139 points
F= 119 or less points

Introductory Tasks = 5 points total
5 Assignments = 75 points total (15 points each)
5 Discussion Topics = 60 points total (12 points each)
1 Project = 20 points total
5 Quizzes = 40 points total (8 points each)

Grading timeline: All work will be graded within two weeks of the due date.

Gradebook:
You are encouraged to check your grade progress regularly in the “Gradebook” section of the Etudes website.
Units:
The course is divided into five thematic units. Each unit consists of a Module, an Assignment, a Quiz, and a Discussion (best if completed in that order).

Modules:
The Module consists of an introduction to the Unit, a list of terms to study for the Quiz, and websites to explore for further information.

Assignments:
Posted in the “Assignments, Tests, Surveys” section of the Etudes website. The assignments usually will consist of reading particular sections of the textbook and answering questions based on what you have learned. It is possible to submit assignments up to 2 days past the due date. Points will be deducted for late submissions. Once the 2 day period passes and the assignment closes, there will be absolutely no more submissions for that assignment accepted. Once an assignment is graded you may read any comments or feedback from me.

Quizzes:
The questions will be multiple choice or true/false. The quizzes are timed. The quizzes will cover the vocabulary terms that are posted in the corresponding Module. You may not make up any of the quizzes if you do not take them by the date that they are set to close.

Discussions:
Posted in the “Discussion and Private Messages” section of the Etudes website. Each Discussion will have two parts and two separate due dates. For each Discussion, you will be posting an initial response as part one, and you will be responding to your classmates as part two. You will be placed in small groups for each Discussion. The groups will rotate, so you will be placed with different classmates each time. Once a Discussion forum closes, no more submissions will be accepted.

Schedule:
Although the due date will be listed with each individual task, you may also access a calendar with the open and due dates for every task for this course. This can be found in the "Schedule" section of the Etudes website. I recommend that you view the calendar “by month” to get a good overview of the course schedule. Notice that this course is not self-paced. The Assignments, Quizzes and Discussions are all set to open and close on specific dates. This is so the class may move along at the same pace. It is your responsibility to check the Schedule often and be aware of when tasks are opening and when they are due.

Course Map:
I do not use this function. Please ignore it. Refer to the Schedule instead.

Student Lounge Discussion Forum
A Student Lounge Discussion Forum has been created to enable students to carry on conversations with each other on any topics of interest (related or unrelated to the course material). Please do not address questions to the professor in the Student Lounge. Always send your questions to the professor by private message.

**Logging On to the Class**
Enrolled students will be able to log on to the course site beginning three days before the semester officially begins. At that point, you may get started by going to the LAVC Virtual Valley site and following the directions carefully. [http://www.lavc.edu/virtualvalley/help.html](http://www.lavc.edu/virtualvalley/help.html)

Once you have logged in to Etudes, you will automatically be in the “My Workspace” section. Click on the LAVC HIS 002 tab to the right of My Workspace. This will place you in the History 2 class site.

**Introductory Tasks**
To get started, you are responsible for completing several introductory tasks. These tasks are designed to help you become acquainted with the Etudes operating system, and for us to become acquainted with each other. The intention is for you to become comfortable with Etudes, so that throughout the rest of the course, you can focus all of your efforts toward mastering the actual course material, as opposed to dealing with technical issues. You must be logged on to the Etudes class site to complete these tasks.

*The due date is 9pm on Tuesday, February 5. If you have not completed these tasks by the due date, you may be dropped from the course. (If you were added to the class late from the waiting list, you have an extended due date.)*

Introductory Tasks: Follow the directions carefully. I highly recommend printing this document and using it as a checklist as you move through each task.
