

Basic Arithmetic Skill

Using Correct Vocabulary: Addends, Sum, Factors, Product, etc.

Fill in the blanks using the following words:

addends, sum, minuend, subtrahend, difference, factors, product, dividend, divisor, quotient

1) In the equation $75 - 50 = 25$, 25 is called the _____, 50 is called the _____, and 75 is called the _____.

2) In the equation $75 \div 3 = 25$, 3 is called the _____, 25 is called the _____, and 75 is called the _____.

3) In the equation $8 \div 4 = 2$, 8 is called the _____, 4 is called the _____, and 2 is called the _____.

4) In the equation $2 \times 6 = 12$, 12 is called the _____ and 2 and 6 are called _____.

5) In the equation $2 + 3 = 5$, 2 and 3 are called _____ and 5 is called the _____.

6) In the equation $79 - 78 = 1$, 78 is called the _____, 1 is called the _____, and 79 is called the _____.

7) In the equation $7 \times 2 = 14$, 7 and 2 are called _____, and 14 is called the _____.

8) In the equation $90 = 9 \times 10$, 90 is called the _____ and 9 and 10 are called _____.

9) In the equation $16 + 7 = 23$, 16 and 7 are called _____ and 23 is called the _____.

10) In the equation $90 = 9 \times 10$, 90 is called the _____ and 9 and 10 are called _____.

11) In the equation $18 \div 3 = 6$, 6 is called the _____, 18 is called the _____, and 3 is called the _____.

12) In the equation $67 = 13 + 54$, 13 and 54 are called _____ and 67 is called the _____.

13) In the equation $10 - 6 = 4$, 10 is called the _____, 6 is called the _____, and 4 is called the _____.

14) In the equation $6 \times 7 = 42$, 6 and 7 are called _____, and 42 is called the _____.

Answers to Using Correct Vocabulary: Addends, Sum, Factors, Product, etc.

- 1) difference, subtrahend, minuend
- 2) divisor, quotient, dividend
- 3) dividend, divisor, quotient
- 4) product, factors
- 5) addends, sum
- 6) subtrahend, difference, minuend
- 7) factors, product
- 8) product, factors
- 9) addends, sum
- 10) product, factors
- 11) quotient, dividend, divisor
- 12) addends, sum
- 13) minuend, subtrahend, difference
- 14) factors, product
